MAYORS REPORT

The Municipal Finance Management Act is very clear on the circumstances under which an Adjustments budget may be considered.

There is no room for additional spending unless savings are identified on existing provisions or more revenue is generated than originally anticipated.

The adjustments budget mainly deals with the following:

- To authorise the utilisation of projected savings in one vote towards spending under another vote where a higher spending was necessitated;
- To adjust the allocated revenue and expenditure due to adjustments in grants receivable from provincial departments; and
- Adjust the provision of expenditure votes, due to an under provision of non-cash items caused by the relative new provisions to comply with GRAP standards. This expenditure to be funded from the accumulated surplus.

The executive summary addresses this in more detail.

The adjustment Budget is submitted for consideration.
